Special session proposal form

Advances in Control Education Aug 28-30 2013

Name and full contact details of proposer

Describe the aims and objectives of the special session and how the session will be organised. Please do this concisely, but with enough information for an effective review of the proposal. A shorter form would ultimately be required for the book of abstracts that attendees will have during the event.

List the presenters with contact details and a short description of each proposed contribution. Indicate where a presenter is also intending to submit a paper for consideration for the proceedings.

Return form to Anthony Rossiter: J.A.Rossiter@shef.ac.uk, Tel: 0114 2225685

NOTE: This is not the form for an invited session where all presenters are submitting papers to proceedings.
